Let's Make School Management Generic, Simple, Smart & Paperless

ABOUT US

GENERIC means Inclusive, Collective, Universal, Multi-disciplinary, Common, General etc. Generic has a philosophy of making quality school management-inclusive, simple, affordable and economical at a fractional of the cost.

Generic Software Solutions Pvt Ltd was founded in 2009 by a group of software professionals having expertise in the domain, with vision, dreams and strong commitments. In this journey of more than 11 years with a humble beginning and sincere attitude, we were able to make inroads in this highly demanding, challenging and result-oriented industry. With 100 + Schools, 1300 + educators and more than 1,54,000+ parents in our fold, we are already aiming stars and discovering new avenues to reach customers like you.

We have designed, developed and implementing nation-wide roll-outs for a wide range of Mobile apps (android/ios), Software Solutions and Web Sites for Schools, Hotels, Amusement Park and many more Industrial segments. With a wide base of talented and highly motivated IT professionals, we provide high-quality products and services by using the latest and relevant IT solutions to retain and develop long-lasting relationships with our clients. In short, we are a "Totally Customer Oriented Organization".

We update all the parents at the same time and build more engagements with parents. Thus building parent's friendly brand image of the school.

OUR PRODUCTS

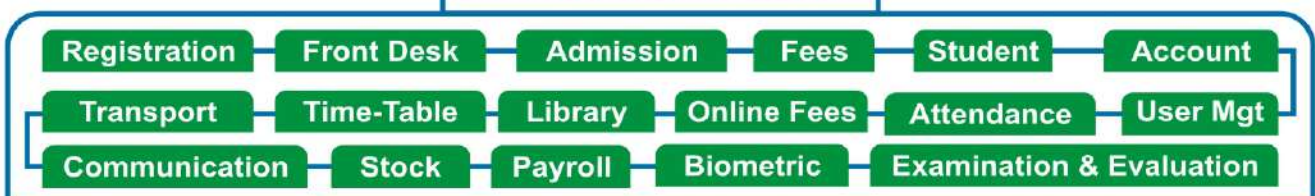

SchoolAppz is a seamless package of apps for Chairman/ Principal or Administration Head, offering digital integrated mobile solutions for Teachers (Teacher Touch App), Parents (Parent Touch App) respectively and School Appz -Visitor. It binds and interconnects all the stakeholders and brings them on one page for better synergy, communication, and integration of educational goals achievement. It gives attractive and simple dashboards for School, Finances and Staff management. It also gives user management rights and app controls for parents app and teachers app. Any entry done through mobile app is updated on ERP.

School Hub is a comprehensive online ERP solution for schools to manage all departments, functions and operations of educational Institute. It is a comprehensive, integrated School Management Software designed and developed by Generic Software Solutions Pvt. Ltd. This software shall be installed under SAAS (software as a service) model under the agreement. SCHOOL HUB is developed to achieve a higher level of performance in handling all activities (Academic & Administrative) of an institution. Any entry done on ERP is also updated simultaneously on school appz.

School Hub Modules

Website Solutions are our quality dynamic website delivery which matches with the school's theme, aptly designed, best presented and optimized for better and top-class visitor experience. School can update images and text directly at their own without any technical help. The web sites are auto adjustable and responsive as per screen sizes devices screens. Parent Portal is also integrated. We also have many digital marketing solutions and tools available for marketing and brand building.
